

**JOINT PUB 3-34**  
***ENGINEER DOCTRINE FOR JOINT OPERATIONS***

**TABLE OF CONTENTS**  
**20 June 97**

**EXECUTIVE SUMMARY (TBD)**

**I. JOINT ENGINEER FUNDAMENTALS**

1. General
  - a. Military Engineering in Support of National Objectives
  - b. Functions of Joint Engineering
  - c. Special Considerations
    - (1) Force Protection
    - (2) Post Conflict Operations
2. Doctrine for Joint Engineer Operations
3. Engineer Preparation of the Theater
  - a. Facilities Acquisition
  - b. Engineer Cross-Service and Common Service Support
4. Unified Actions, Joint Warfare, and Engineers
  - a. Engineer Resources
  - b. Command and Control of the Engineer Elements of Joint Forces
5. Basic Organization of Engineer Forces
6. The Force Multiplier Effect of Engineer Operations
  - a. Engineering is Critical for Preparation of the Theater
  - b. Service Unique Units and Capabilities
  - c. Engineer Prep for Decisive Operations
7. Joint Engineer Principles
  - a. Centralized Coordination-Decentralized Execution
  - b. Allocation of Priorities
  - c. Engineer Early Planning
  - d. Logistics Support
  - e. Staff Relationships

**II. ORGANIZING FOR JOINT OPERATIONS**

1. General
2. Engineer Staff Functions
  - a. Intelligence
  - b. Operations
  - c. Planning
  - d. Facilities
  - e. Environmental
  - f. Engineer Material management
  - g. Special Functions
3. Staffing Options
  - a. J3 Staff
  - b. J4 Staff
  - c. Special Staff
4. Command Relationships and C2
  - a. Organization of Service Engineer Forces

- b. Component Responsibilities
  - c. Joint Task Force Engineer Command
- 5. Conclusion

### **III. PLANNING**

- 1. General
- 2. Considerations
  - a. Commander's Intent (Engineer Endstate)
  - b. Engineer Force Assessment
    - (1) Assigned Forces
    - (2) Host Nation/Multinational
    - (3) Civil Augmentation
  - c. Preparation of the Battlespace
    - (1) Geospatial
    - (2) Intelligence (Reconnaissance)
    - (3) Battlespace Visualization
- 3. Levels of Engineer Planning
  - a. Strategic and Operational
  - b. Tactical
- 4. Special Planning Considerations
  - a. Environmental Planning Considerations
    - (1) Environmental Stewardship
    - (2) Joint Environmental Management Board (JEMB)
    - (3) Environmental Restoration
    - (4) Waste Disposal
  - b. Funding and Resource Management Considerations
    - (1) Executive Agency
    - (2) Statutory Construction Funding Limitations
    - (3) Contingency Funding
  - c. Military Operations Other Than War (MOOTW)
- 5. Engineer Planning Phases
  - a. Predeployment
    - (1) Transition
    - (2) Termination
  - b. Deployment and Sustainment
    - (1) Lines of Communication (LOC)
    - (2) Bed-Down Facilities
  - c. Post Hostilities
  - d. Redeployment
    - (1) Materials Turnover
    - (2) Database Turnover
  - e. Recovery
- 6. Planning Processes
  - a. Deliberate Planning
  - b. Crisis Action Planning (CAP)
  - c. Engineer Operations Plan
- 7. Conclusion

### **IV. OPERATIONS**

- 1. General
- 2. Joint Engineer Functions

- a. Combat Engineering
    - (1) Mobility
    - (2) Countermobility
    - (3) Survivability
  - b. Civil Engineering
  - c. Topographic Engineering
- 3. Warfighting Considerations
- 4. Engineer Support to Military Operations other Than War
- 5. Post Hostilities Operations
- 6. Specialized Engineer Functions
- 7. Conclusion

## **APPENDICES**

### **JOINT ENGINEER CAPABILITIES**

- 1. General
- 2. Capabilities
  - a. Department of the Army
  - b. Department of the Navy& Marines
  - c. Department of the Air Force
- 3. Engineer Capabilities Matrix
- 4. Multinational/Coalition Assets
- 5. Civil Augmentation Programs
  - a. CONCAP
  - b. AFCAP
  - c. LOGCAP

### **CONTRACT CONSTRUCTION AGENTS (CCA)**

- 1. General
- 2. United States Army Corps of Engineers (USACE)
  - a. General
    - (1) Civil Works Program
    - (2) Military Program
  - b. Flexibility
  - c. Organization
    - (1) Divisions
    - (2) Districts
    - (3) Laboratories
    - (4) Centers
  - d. Support for Joint Operations
    - (1) Power Projection
    - (2) Theater Missions
    - (3) CONUS Contingency Missions
- 3. Naval Facilities Engineering Command (NAVFACENGCOM)
  - a. General
  - b. Command and Control
    - (1) Construction Battalion Centers
    - (2) Engineering Field Divisions and Activities (EFD&EFA)
    - (3) Officer in Charge of Construction
    - (4) NAVFAC Engineering Service Center
  - c. Support for Joint Operations
    - (1) Power Projection
    - (2) Theater Missions

### (3) CONUS Contingency Missions

TBD
